EDUCATION

Georgia Institute of Technology
Masters of Science in Computer Science

Atlanta, GA
Expected May 2027

University Of Georgia
Bachelor of Science in Computer Science

Athens, GA
May 2024

TECHNICAL SKILLS

Languages: C#, Java, Python, JavaScript, C/C++, HTML/CSS, SQL

Frameworks: React, Node, Express, Bootstrap, Blazor, Material-UI, Angular

Developer Tools: Git, Docker, Kubernetes, VS Code, Visual Studio, PyCharm, Figma, Office 365, MongoDB, Bash

Libraries: Pandas, NumPy, Matplotlib, bUNIT, SCSS, jUNIT

EXPERIENCE

Software Engineer 1

Charles Schwab

Jan 2026 – Present

Southlake, TX

- Developing financial planning API endpoints with Java and Springboot

Software Engineer 1

402d Software Engineering Group (SWEG) - Robins AFB

July 2024 – Jan 2026

Warner Robins, GA

- Designed and developed full-stack cloud applications for the USAF using React, Blazor, C#, .NET, and MongoDB, improving application efficiency by 15% and reducing technical debt for the Air Force.
- Collaborated cross-functionally with stakeholders, engineers, and product teams to align software solutions with DoD security and compliance standards
- Led Agile ceremonies including daily standups, sprint planning, and retrospectives, driving a 25% improvement in team efficiency and fostering a culture of continuous improvement
- Utilized CI/CD pipelines using Docker and Kubernetes, streamlining deployment processes and enhancing system reliability

Information Technology Support Specialist

Georgia Southern University

Oct. 2021 – Dec. 2021

Savannah, GA

- Communicated with managers to set up campus computers used on campus
- Assessed and troubleshoot computer problems brought by students, faculty and staff
- Maintained upkeep of computers, classroom equipment, and 200 printers across campus
- Delivered IT maintenance and technical support, improving user satisfaction by resolving 90% of issues on first contact

PROJECTS

Rate Your Court | *JavaScript, React, Node/Express.js, PostgreSQL, Redis, Google APIs*

2025

- Developed a full-stack web application for discovering, reviewing, and managing multi-sport courts (tennis, pickleball, volleyball, basketball, badminton, padel).
- Implemented secure user authentication with traditional email/password and Google OAuth, leveraging Supabase and JWT tokens.
- Integrated Google Places API for automated court discovery and real-time data enrichment.
- Visit at www.rateyourcourt.com

Macro-Buddy | *Java, JavaScript, React, HTML/CSS, Git, MongoDB, Node/Express.js*

2025

- Crafted a full-stack nutrition tracking web app using the MERN stack (MongoDB, Express.js, React, Node.js), enabling users to log daily meals and track macronutrient intake
- Implemented user authentication and secure data storage with JWT-based authentication and MongoDB for personalized meal diaries and nutrition tracking
- Designed an intuitive and responsive UI with React, ensuring seamless meal logging, real-time macronutrient calculations, and an enhanced user experience
